

合肥特丽洁卫生材料有限公司  
HEFEI TELIJIE SANITARY MATERIAL CO., LTD.

Hefei Telijie Sanitary Material Co., Ltd. was established in 2002, owning the existing TELIJIE Industrial Park, the workshop 16000M2, 100thousand class purification workshop 3000M2. Our company was listed on the Shanghai Equity Trading Center in June 2016.

Telijie is the nonwoven Engineering Technology Research Center in Anhui province, awarded private technology enterprises in Anhui province and National High-Tech enterprises. Having more than 100 multinomial patent. We obtain the most patent in China's non-woven industry and the paper industry, and made the scrim reinforced towel industry standards in 2009.

Scrim reinforced towel-- Our new independent research biodegradable material, is a revolution in the paper industry. It completely changed the properties of paper, the longitudinal and transverse tensile strength increased 1,000 times after flooding. scrim reinforced towel is widely used for daily household fast-moving consumer goods market and health care fields.

With more than 15 years production, research and exporting experience, Telijie become a professional supplier of disposable medical and health products. Our products involved seven series, widely used in daily necessities, health care, beauty, hotels, agriculture, aviation and other fields.

Telijie have obtained the ISO9001:2008 , ISO13485, CE certification. After a long period of development, we have established long-term business relationships with more than a dozen of the world's top 500 enterprises from United States, Europe, Japan and other countries.
